

Aeronauts Fun Sheet – Good Pilot

Would you make a good pilot?

Pilots need good eyesight for when they are flying.

Find the **colour vision test** display.

Can you read all the numbers?

How are your reactions? You never know what might happen when you are flying a plane.

Find the reaction rod. Get someone to hold the rod up for you, **see how fast you can catch it.**

Do not forget to write your name and speed on the board!

Can you spot all the differences between these two pictures?
