

# Sketching at the Museum K3/4/5

## Drawing Activity

Choose your subject

1. Look at your subject for one minute. Turn away and draw it from memory.

Time: 2 minutes

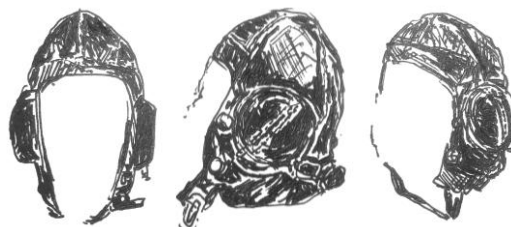

2. Make a continuous line drawing. Look at the subject and not the drawing. Make sure the pencil stays in contact with the paper. Repeat 3 times.

Continuous line drawing of an Avro Lancaster

Time: 3 minutes

3. Make three sketches of your subject from different angles.

Flying helmet from different angles

Time: 6 minutes

## Negative space drawing

Negative space is the air/space all around an object in art.

Choose your subject but rather than draw it, fill in the space around it.

You can choose to draw the area around your subject in detail...

... or simply fill the space.

If you would like to share your drawings, take a photo and share them with us @RAFMUSEUM
