Ways to be well is an evidence-based health and wellness programme. Our approach focuses on the core principals to help people to be ‘nutritionally well’, ‘mentally and physical well’ and ‘responsibly well’ in the belief that wellness in the 21st century means working and living in ways that are better for our bodies, our minds, and our planet.

Our carefully crafted menus include breakfast, snacks, lunch, and beverages to allow you to enjoy nutritionally designed and analysed to help you make informed choices.

The menus included in these packages focus on wholefoods. Those that are best for us are those that are close to their natural state and have not been modified by industrial processes. Our nutritionally analysed menus focus on seasonal fresh fruits and vegetables, pulses, nuts, seeds and moderate amounts of meat and sustainable fish.

REGISTRATION

ALLERGEN INFORMATION

Do you have a food allergy or intolerance?

We provide allergen information on the 14 major allergens. Please speak with your sales co-ordinator and details of allergens in any of our dishes can be provided for your consideration. At your event there will be an Allergen Folder located at all buffet stations on your event catering floor to make delegates aware of all allergens contained in your chosen menu and help them make an informed decision.

Please note, as with every catering establishment, there is always a potential for cross contamination to occur. While we endeavour to prevent this as far as possible, the nature of an allergen means we cannot fully guarantee that cross-contamination may not have occurred. We encourage our customers with food allergies and intolerances to let our staff know so we can better cater for them. We are happy to provide further detail on ingredients and how they were handled to allow you make an informed decision as to whether or not the food is suitable for you.

If you have any concerns, please speak to a member of staff.
