

# Name that Job

The Avro Lancaster was a large bomber aircraft that was used during the Second World War.

The crew of seven had a range of different jobs.

To show which job they do, RAF aircrew have a badge called a brevet on their uniform.

Pilots have a brevet with two wings.

The rest of the aircrew have a brevet with one wing and a letter or letters which give a clue to their jobs.

# Name that Job

This crew member will help you find your way. They need to be good at reading maps.
