

School Visit Information

The Coach Drop-Off point is located at the bottom of the site by the Hercules aircraft. Please disembark and head up the main central pathway towards the Visitor Centre. Coaches are then to park in the coach bays next to the main visitor car parks.

A member of the Access and Learning Team will be ready to greet you at the visitor centre and will book you in and brief you on the measures that the Museum have in place. Please abide by the one-way system near the visitor centre entrance and remember to social distance your school group from visiting public.

A strict one-way system runs throughout the whole Museum and is denoted by Vulcan aircraft marked onto the floor and on signage. Please adhere to this wherever possible. When in the hangars, we recommend that you split your bubble into smaller groups with a ratio of **one adult to ten students**.

For lunch, please ensure that you abide by the one-way system to get to your lunch area. If you are situated in the crew room, please ensure that you go through the visitor centre. This ensures that everyone is following the same route. Please use the PPE situated in the lunch spaces to clean down tables and chairs to your own standard. All spaces are deep cleaned by staff in between use. Lunch rubbish must be taken with you using one of the rubbish bags supplied.
