

5 February 2019

# Ed-Tech Convention lands at Cosford

**Date:** 5 March 2019

**Time:** 9.00am to 5.00pm

**Cost:** £100 (+VAT) pp / maximum two people per organisation

**Tablet Academy, one of the largest education training companies in the UK, in partnership with the Royal Air Force Museum Cosford will be delivering the first 'Ed-Tech Convention' on Tuesday 5 March, bringing together like-minded individuals from the field of education and technology.**

Suitable for school leaders, classroom teachers (KS2-KS5) and IT professionals, this brand-new convention is unlike any other, designed to immerse attendees in hands-on workshops and networking activities. Attendees will be guided through a series of short 30 minute activities, delivered by industry and Tablet Academy experts, nestled amongst the historical Royal Air Force Museum exhibits.

The one day convention will be packed with innovative and inspiring content that will transform your working practices. Highlights include: Institutional Transformation, Cloud Migration (Microsoft and Google), Online Safety, Front of Class Solutions, Teacher's Technology Apprenticeship Programme, Apple, Google and Microsoft Expertise, Accredited training, Classroom devices, Computing Curriculum, STEM, Virtual Reality and Augmented Reality, Robotics, Drones and more.

**Tablet Academy Managing Director, Mark Yorke said:**

"The idea of the convention is to provide educators the opportunity to network with like-minded people in an inspirational venue, whilst having the opportunity to get hands-on with a range of technology and question the industry experts."

Taking place in the National Cold War Exhibition the format of the day will commence at 9.00am with networking and refreshments on arrival, followed by an event briefing and then it's straight into the first of nine hands-on workshops. A buffet lunch will be served and enjoyed amongst the aircraft, before a busy afternoon of workshops and the chance to get specialist advice from the experts in the partner lounges dotted around the Museum hangar.

Delegates attending the convention have the exciting opportunity to claim a **free HP ProBook x360 11 EE laptop worth over £400**. Thanks to the support of HP for Education, one representative from each educational institution (school or college) in attendance can claim their free device on the day. To claim your free device all you need to do is register your institution with HP for Education [www.hpfe.com](http://www.hpfe.com), a programme designed to give rewards to educational establishments when they purchase new HP devices and trade in their old technology. For full details and T&C's visit the Tablet Academy website [www.tablet-academy.com/convention/](http://www.tablet-academy.com/convention/).

Following the summary keynote, guests are encouraged to network further with colleagues whilst enjoying afternoon tea and if applicable, collect your free device, before the convention closes at 5.00pm.

Tickets are limited and will be allocated on a first come first served basis. To book your place on the Ed-Tech Convention visit the Tablet Academy website [www.tablet-academy.com/convention/](http://www.tablet-academy.com/convention/).  
Ends...

## Notes to Editors:

### Event Partners

#### Tablet Academy

As one of the leading platform agnostic consultancy, teacher training and student engagement companies in the UK, Tablet Academy prides itself on providing a quality service as an affordable price. Led by innovative educationalist Professor Steve Molyneux and Creative Consultant Mark Yorke, the company has grown to become one of the largest education training companies with franchise offices in the Canary Islands, Germany, Lebanon, Scotland and Turkey and a rich array of international industry and other educationally focussed partners.

#### RAF Museum Cosford

Award winning Access and Learning staff utilise the unique and fascinating Museum collection to offer a wide range of innovative, fun and enjoyable activities to a variety of audiences. All activities support the National Curriculum and can be adapted to suit the specific needs of visiting groups, including those with mobility and sensory impairments and other special needs. Workshops available are subject specific or can be cross-curricular.

#### HP for Education

HP for Education is a Trade In program designed to give Trade In rewards to Educational Establishments when purchasing new HP devices and trading in old technology. In addition to promotions the portal provides educational tools connecting registered users with HP Preferred Resellers and HP Training Partners to offer products and services at a reduced rate.
